Learn@Home

Why Material Design?

- Google-developed visual language particularly suitable for presenting large amounts of textual information
- Gives ability to design and develop a compelling user experience extremely quickly
- Familiar interface elements (from Android phones and other Google software) give users a degree of confidence and speed up acceptance of the application

Page / Side menu element

The mobile application interface features a pink header bar with a menu icon and a user profile for "Jane Moneypenny". Below the header is a red navigation bar with a backpack icon and the word "Chat". The main content area has a light gray background. At the top left, there's a red rounded rectangle containing the number "5" and the text "Unread messages" next to a red "+" button. Below this is a section titled "Active chats" with the subtext "It's good to talk!". It shows three circular profile pictures: one with a "4" badge, one with a "1" badge, and one without a badge. A message card displays the text "Lorem ipsum dolor sit amet, consectetur adipiscing elit. Curabitur auctor nibh quis nulla sollicitudin condimentum. Phasellus fermentum purus ut dignissim dictum." with a timestamp "09:42". Another message card shows "Et tu, Hugo?" with a timestamp "08:08" and two checkmarks. At the bottom is a red "New message" input field with a red send icon.
